

NRx Pharmaceuticals to present at The Emerging Growth Conference, discussing update on HOPE Therapeutics

October 31, 2024

MIAMI, Oct. 31, 2024 (GLOBE NEWSWIRE) -- EmergingGrowth.com a leading independent small cap media portal announces NRx Pharmaceuticals (NASDAQ: NRXP) will appear on the Emerging Growth Conference today in response to multiple requests and investor demand.

The Emerging Growth Conference identifies companies in a wide range of growth sectors, with strong management teams, innovative products & services, focused strategy, execution, and the overall potential for long-term growth.

Jonathan Javitt, MD, MPH, Founder and Chairman will be discussing its first steps towards acquisition through its HOPE Therapeutics subsidiary of a national network of interventional psychiatry clinics focused on treatment of suicidal depression and PTSD with ketamine, transcranial magnetic stimulation, digital therapeutics, and other therapies that affect the NMDA receptor of the brain.
